DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Tarek Fahmi on 3/30/2006.

The application has been amended as follows:

Claim 1: at the end of claim 1, add --wherein each of the pixels has a respective pixel value, and wherein shaping the electron beam comprises writing all the pixels having the same pixel value in the respective frame image substantially simultaneously.--

Claim 2: Cancelled

Claim 3: delete "claim 2" and replace it with --claim 1--.

Claim 52: at the end of claim 52, add --wherein each of the pixels has a respective pixel value, and wherein the electron beam generator is adapted to write all the pixels having the same pixel value in the respective frame image substantially simultaneously.--

Claim 53: Cancelled

Claim 54: delete "claim 53" and replace it with --claim 52--.

Allowable Subject Matter

Claims 1-34 and 52-85 are allowed.

The following is an examiner's statement of reasons for allowance: Regarding independent claims 1 and 52, the closest prior art does not teach or render obvious the claimed pixels having a respective pixel value, and wherein shaping the electron beam comprises writing all the pixels having the same pixel value in the respective frame image substantially simultaneously.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
